Dear Mr Lee

I enclose herewith official letter advising formation of the LWC.

I do not think I ever had the rules of the Derby Wireless Club and as I am making up the rules of the LWC of which I am the honourable secretary, I should be pleased to have them.

What is your experience as to rules in taking measures to prevent jamming between stations or to your members not suffer from this complaint?

When will we see you in London?

I trust you will become a member and perhaps invite a few friends to join as corresponding members. I will do the same on my side.

What are the views of your members re new regulations of G.P.O on licences?

Yours sincerely

R. H. Klein
